### New Options for Your Medicare Coverage

It's great to have choices, and that's what Medtronic wants to provide for its retirees.

Although you will still have access to the Medtronic coverage you are currently enrolled in, you now have another option for 2016.

The Retirement Assistance Program provides a healthcare exchange that helps you find, compare and enroll in a Medicare or pre-65 plan that best suits your healthcare needs and budget. This service is available at no cost to you!

#### *Q. Why would I want to switch from my Medtronic plan?*

- Our exchange might be able to find you a plan that better meets your healthcare needs and budget than your current coverage.
- We have specially trained experts, called Advocates, who have been trained on the Medtronic plans and can help you shop and compare the private healthcare marketplace to your current coverage. Our Advocates' role is to help you make decisions that are in your best interest through objective, informed advice.

#### *Q. The private exchange concept sounds confusing. Why would I consider looking into that when I am comfortable in my current plan?*

- You're right – this can be confusing, especially with so much information about it in the news and conflicting reports about what it really entails.
- Our Advocates are available to spend as much time as you need to understand your options, answer all of your questions about healthcare insurance via the exchange: how it works, how it compares to your current coverage, and then to help with all the steps if you choose to convert your coverage... **if it is in your best interest!**
